

This is the the review quiz you can give to your level 2 students after you have given them several days to review all the vocabulary from last year level 1 Hands In Touch. I divide it into two sections so that they're not overwhelmed. If they don't have their notebooks from last year to review the vocabulary, they can watch the videos from level 1. (See the section on review games for reviewing.)

Sign the words and have students write the word.
