

AFRICAN COUNTRY QUIZ

Use the notes you took from observing other students' presentations. On a separate piece of paper, write the following:

Write about the country that you would most like to live in and give specific examples from your notes as to why you would like to live there. You may also want to include some drawbacks to living there as well as adjustments that you might need to make in living there.

Also, write about the country that you would least like to live in. Again, give specific examples from your notes to support your case. You may also want to include some benefits of living there as well.
